PUPPY APPLICATION

LakeHaus Puppy Application for progeny of:

_____ (Dam) and _____ (Sire)

Thank you for your interest in this stellar pairing of German Shorthaired Pointers. We look for these puppies to have exceptional temperaments and strong drives suitable for multiple disciplines. This pairing should produce correct conformation, heavy-bone, and exceptional hunt drive. Breeder will rear puppies for 8 weeks in our home using the Puppy Culture program. Puppies will come microchipped and with age appropriate immunizations and deworming, birth, health and registration documents, transition care package, new owner information packet and lifetime breeder support. Puppies will have been started on kennel and potty-training.

Being thorough with your responses will help to provide the best match to meet your needs. After a phone call to clarify needs and address questions, a copy of the sales contract will be sent to qualified applicants with an invitation to place a non-refundable deposit of \$500.00 towards a total purchase price of \$2000.00 for Limited Registration.

1st Pick male and 1st Pick female are reserved for the breeder to retain, sell or place without restriction. Any puppies that are deemed Show Potential will be reserved and held for show homes before being offered to any Pet Only buyers, regardless of placement order. Remaining puppies will be considered for homes that are the best match for applicant's needs and preferences. Placement order will coincide with order of received deposits, and placement order is used solely to determine which home a puppy will go to. If two or more applicants desire the same traits in a puppy, evaluations for drives and character traits will be performed and recorded weekly until placement decisions are made. Evaluations may give indications of personality or traits of the puppy.
